# light rao

Software engineer, Programmer  
Kunming, Yunnan, China

## Summary

As a seasoned software engineer with over 10 years of experience, I have honed my skills across various domains including blockchain, AI, and web development. I am proficient in languages such as Solidity, Python, JavaScript, HTML, and CSS, among others, and have successfully delivered numerous projects leveraging modern frameworks like React.js.

Throughout my career, I have demonstrated a strong ability to solve complex problems and build innovative solutions. My passion for math and computer science drives my continuous learning and professional growth.

In addition to my technical expertise, I have a profound interest in Buddhism, which influences my approach to work and life, fostering mindfulness, resilience, and a balanced perspective.

I am always eager to tackle new challenges and collaborate with like-minded professionals to create cutting-edge technology solutions.

---

## Experience

Freelance (Self employed)

Software Engineer

March 2012 - Present (13 years 3 months)

Kunming, Yunnan, China

A versatile software engineer specializing in frontend, backend, chainend development, and machine learning. Skilled in full-stack development, blockchain, data science, React, Flutter, Python, HTML, CSS, JavaScript, Solidity, and more.

---

## Education

Yunnan University

Master of Computer Applications (M.C.A.), Web Page, Digital/Multimedia and  
Information Resources Design · (2008 - 2011)
